JSHP Shipped 15,000+ Unit of 110kV - 850kV Transformers

JSHP has shipped 15,000+ unit of 110kV to 850kV transformers as of the end of February 2026.

In 2025, JSHP delivered 141,000 MVA of transformer capacity (remaining flat year-over-year). Deliveries included 747 units of 110kV+ MPTs and shunt reactors, 6,673 units of MVTs, 3,191 distribution transformers, and 6,572 cast resin transformers. Over the 59 years history, JSHP has shipped more than 15,000 units of 110kV-525kV transformers and shunt reactors to 100+ countries—without a single catastrophic failure.
